

Product Designer with 4 years of experience delivering B2B/B2C products in fintech, public sector, and healthcare. With an engineering and research background, I focus on scalability, feasibility, and simplicity in my designs.

EXPERIENCE

UX Designer

Boson AI

08/2025 - Present

- **Led the interaction design for the technical demo of Higgs Audio**, Boson's own audio AI model. Partnered with PMs and AI engineers to understand and showcase the model's technical capabilities with an interactive demo
- **Established Boson's first design system** with reusable UI components and micro-interactions. Collaborated with engineers to ensure feasibility and scalability

HCI Researcher & Designer

*Prosocial Computing Group,
University of Washington*

08/2023 - 09/2025

- **Developed the web prototype of AI tools with React**. Improved research platform performance with prompt engineering to support human-AI interaction studies
- **Led 3 AI studies (1 published at DIS '25)**. Conducted 50+ interviews to learn about the industry perception of AI in policymaking, product design, and video creation
- **Improved engagement of data labeling task** by designing a gamified map feature on an accessibility data platform deployed in 11 cities worldwide

UX Designer

BORING Design Lab

10/2022 - 05/2023

- **Increased monthly active users by 7x** by redesigning the mobile credit card rewards feature for a bank app with 3+ million users. Led the end-to-end interaction design, leveraging gamification and motion design to optimize engagement
- **Delivered and communicated designs in collaboration with PMs and engineers** through co-creation workshops. Supported developer handoff with hi-fi specs

Research Assistant

Mobile & Ubiquitous Interaction Lab

10/2019 - 12/2022

- **Designed and developed a campus navigation app** for students with accessibility needs. Informed design with 30+ interviews and built the front-end with React
- **Received honorable mention for the Best Paper Award at CHI '22 conference** for a mixed-methods study on the optimal chatbot design in human-AI interaction

UX Fellow

Office of the Digital Minister (Taiwan)

07/2021 - 08/2021

- **Raised the SUS from 58 to 85 (25th to 96th percentile)** by redesigning Taipei City's Daycare Portal, ensuring WCAG compliance and usability for 2K+ parents each year
- **Defined project scope and drove key design decisions** with government stakeholders to align user needs with department goals and constraints

Founding UX Designer

Horizone Studio

07/2020 - 11/2020

- **Drove product growth to 6K+ business clients and 140K+ users** by leading the 0-to-1 design of Taiwan's first dentist reservation platform for a B2B startup
- **Hosted a workshop with 30+ dental professionals**, conducted user interviews, and designed surveys to understand their business goals to inform design

EDUCATION

University of Washington

Master of Human-Computer Interaction + Design

National Yang Ming Chiao Tung University

Hsinchu, Taiwan

B.B.A. in Management Science & B.S. in Computer Science (double major)

SKILLS

Prototyping & Design Tools

Front-end (HTML/CSS/JS) / AI Prototyping (v0/Cursor) / Unity / C# / Arduino / Lottie Figma / Adobe Creative Suite (Photoshop/Illustrator/After Effects) / Video Making

Design & Research Methods

User Flows / Information Architecture / Design System / Visual Design / UI Design Journey Mapping / Persona / Wireframe / Responsive Web System (Desktop/Mobile) Interview / Workshop / Survey / Usability Testing / Concept Testing / Rapid Iteration
